**RE: CDOT Colorado Aviation Economic Impact Study**

Dear Business Owner with a Based Aircraft:

Air transportation is vital to many Colorado businesses. Whether air trips are to collaborate with vendors or clients, or shipping vital products and communications, air transport services are a key part of Colorado's infrastructure.

You are being sent this survey because your business owns, or leases one or more aircraft based at a Colorado airport. I am writing to ask for your help in understanding your business's experiences and views regarding commercial and general aviation airports in Colorado. The best way we have of learning about business aviation-related activities is by asking Colorado businesses to share their perspective and information.

You will be helping us out a great deal by taking a few minutes to share information on your business's use of and views about Colorado airports. Please have a member of your staff who is knowledgeable about your business's use of airports to complete the questionnaire. With this knowledge, we estimate it will take approximately 15-20 minutes to complete. We hope that you will be able to complete the questionnaire so that we can summarize the results as quickly and accurately as possible. Doing that is easy: just use the link below or the QR code to access!

<https://www.surveymonkey.com/r/Business-Aircraft-Own-Lease-Survey>

We realize that sometimes it is easier to complete questionnaires by hand. If you prefer, please print the questionnaire that is attached to the email, fill it out, then scan and email it back to us at [thomas.gibson@kimley-horn.com](mailto:thomas.gibson@kimley-horn.com). The information you provide will be kept confidential and sent directly to our consultants. ***Please be aware that we will not be reporting individual business responses in our findings; all responses will be combined to show the reliance of Colorado businesses on the aviation system.***

You will be helping us out a great deal by taking a few minutes to share your business's experiences and views about Colorado airports. I look forward to demonstrating the important value of our aviation system.

If you have any questions regarding the study or the enclosed survey, please contact the project team: Scott Storie at (303) 512-5251 or [scott.storie@state.co.us](mailto:scott.storie@state.co.us) or Pam Keidel-Adams of Kimley-Horn at (480) 207-2670 or [pam.keidel-adams@kimley-horn.com](mailto:pam.keidel-adams@kimley-horn.com).

Sincerely,

David Ulane, A.A.E.  
Aeronautics Director
