

2020 Colorado Aviation System Plan

2020 CASP Technical Report

COLORADO
Department of Transportation
Division of Aeronautics

Table of Contents

Acknowledgements.....	xiv
Chapter 0. COVID-19 Analysis	0-1
0.1. Introduction	0-1
0.2. Overview of the COVID-19 Pandemic.....	0-1
0.3. Aviation Industry Impact	0-3
0.4. Impact of Pandemic to Colorado Airports	0-11
0.5. Potential Recovery Scenarios.....	0-24
0.6. Summary.....	0-32
Chapter 1. Study Design and Goals.....	1-1
1.1. Introduction	1-1
1.2. Study Process	1-1
1.3. Goal Considerations.....	1-3
1.4. CASP Goals and Measures	1-7
1.5. Summary.....	1-11
Chapter 2. Inventory of System Condition.....	2-1
2.1. Introduction	2-1
2.2. Existing System	2-1
2.3. Inventory Process	2-7
2.4. Airside Facilities.....	2-8
2.5. Landside Facilities	2-28
2.6. Airport Activity	2-39
2.7. Mobility and Access	2-56
2.8. Airport Safety.....	2-60
2.9. Airport Planning	2-63
2.10. Land Use Compatibility and Business Development	2-69
2.11. Summary	2-75
Chapter 3. Supplemental System Context	3-1
3.1. Introduction	3-1
3.2. Intermodal Integration/Airport Access.....	3-1
3.3. Environmental Context.....	3-38
3.4. Supplemental System Context Summary.....	3-66
Chapter 4. Aviation System Issues	4-1
4.1. Introduction	4-1
4.2. Airspace / Air Traffic Congestion	4-8
4.3. Aviation Demand	4-9
4.4. Fuels Types and Availability	4-12
4.5. Hangar Availability.....	4-13
4.6. Infrastructure Needs.....	4-14
4.7. Land Use Planning and Encroachment	4-18
4.8. Pilot / Aviation Workforce Shortage	4-20
4.9. Public Engagement / Government Support.....	4-23
4.10. Revenue Generation and Funding Challenges	4-24

4.11. Technology	4-27
4.12. Summary	4-29
Chapter 5. Airport Role and Classification Analysis.....	5-1
5.1. Introduction.....	5-1
5.2. Federal Classifications.....	5-1
5.3. Types of State Classification Methodologies	5-8
5.4. 2011 CASP Roles	5-9
5.5. 2020 CASP Classifications	5-15
5.6. Facility and Service Objectives	5-29
5.7. Classifications Summary.....	5-34
Chapter 6. Existing System Performance	6-1
6.1. Introduction.....	6-1
6.2. Goal: Safety and Efficiency.....	6-2
6.3. Goal: Access and Mobility.....	6-21
6.4. Goal: Economic Sustainability.....	6-55
6.5. Goal: System Viability	6-64
6.6. Facility and Service Objectives	6-75
Chapter 7. Aviation Demand Forecasts	7-1
7.1. Introduction.....	7-1
7.2. Socio-Economic Trends	7-2
7.3. Aviation Trends.....	7-15
7.4. Enplanements Forecast.....	7-28
7.5. Based Aircraft Forecast	7-38
7.6. Operations Forecast	7-46
7.7. Summary of Forecast Findings.....	7-68
7.8. Alternative Forecasts	7-77
7.9. Summary.....	7-92
Chapter 8. Future System Performance	8-1
8.1. Future System Performance	8-1
8.2. Facility and Service Objective Needs	8-33
8.3. Future Aviation Demand Considerations	8-33
8.4. Summary.....	8-56
Chapter 9. Analysis of System Alternatives	9-1
9.1. Aviation-Related Influences	9-1
9.2. Non-Aviation-Related Influences.....	9-18
9.3. Summary of Alternatives.....	9-37
Chapter 10. System Needs and Recommendations	10-1
10.1. Introduction	10-1
10.2. Financial Needs	10-3
10.3. System Plan Project Costs by Goal Category	10-4
10.4. System Plan Project Costs by Facility & Service Objective.....	10-12
10.5. Future Facility Project Costs.....	10-22
10.6. Overlapping PM and F&SO Costs	10-24

10.7. Non-2020 CASP-Related Project Costs	10-25
10.8. Total Project Costs	10-28
10.9. Total System Plan Cost Summary by Airport Classification	10-31
10.10. Funding Sources	10-40
10.11. Summary of 2020 CASP Recommendations and Implementation	10-48
10.12. Development Priorities and Justification	10-53
10.13. Policy and Investigation Recommendations	10-56
10.14. Recommended NPIAS Changes.....	10-57
10.15. Summary.....	10-58
Appendix A. Land Use Evaluation	A-1
A.1. Existing Land Use Evaluation	A-1
A.2. Summary	A-12
Appendix B. Airport Report Cards.....	B-1
Appendix C. 2018 Airport Performance Data	C-1
C.1. Introduction.....	C-1
C.2. Safety and Efficiency	C-1
C.3. Access and Mobility	C-10
C.4. Economic Sustainability	C-20
C.5. System Viability	C-28
C.6. Facility and Service Objectives (F&SOs).....	C-37

List of Tables

Table 0.1. Overall Impacts.....	0-15
Table 0.2. Impacts to Airport Fuel Sales	0-17
Table 0.3. Impacts to Airport Revenues.....	0-19
Table 0.4. Impacts to Airport Capital Funding and Project Progress	0-21
Table 0.5. Impacts to Tenant Staffing and Funding	0-23
Table 0.6. Potential Recovery Scenarios.....	0-25
Table 0.7. Scenario #1: 10 Percent Decrease in Passenger Traffic	0-29
Table 0.8. Scenario #2: 30 Percent Decrease in Passenger Traffic	0-30
Table 0.9 Scenario #3: 50 Percent Decrease in Passenger Traffic	0-30
Table 1.1. Goals, Objectives, and Performance Measures from SWP 2040	1-4
Table 1.2. Safety and Efficiency Goal, Performance Measures, and System Indicators.....	1-8
Table 1.3. Access and Mobility Goal, Performance Measures, and System Indicators.....	1-9
Table 1.4. Economic Sustainability Goal, Performance Measures, and System Indicators....	1-10
Table 1.5. System Viability Goal, Performance Measures, and System Indicators.....	1-11
Table 2.1. 2020 CASP Airports	2-3
Table 2.2. Airport Reference Code Summary	2-9
Table 2.3. ARC Summary	2-10
Table 2.4. Primary Runway Facilities.....	2-11
Table 2.5. Taxiway Facilities	2-14
Table 2.6. Visual Aids, NAVAIDs, and Approach Types at CASP Airports	2-20

Table 2.7. Allowable Crosswind Component per Runway Design Code (RDC)	2-24
Table 2.8. CASP Airport PCIs.....	2-26
Table 2.9. Commercial Service Terminal Buildings.....	2-30
Table 2.10. Landside Facilities	2-35
Table 2.11. 2018 Statewide Based Aircraft by Type.....	2-39
Table 2.12. 2018 Based Aircraft by Type	2-41
Table 2.13. 2018 Statewide Operations by Type.....	2-44
Table 2.14. 2018 Annual Operations by Type	2-45
Table 2.15. 2018 Commercial Passenger Enplanements	2-49
Table 2.16. Other Types of Aviation Activities Occurring at CASP Airports.....	2-52
Table 2.17. Ground Transportation Options Provided by CASP Airports.....	2-57
Table 2.18. Airport Safety Indicators at CASP Airports	2-61
Table 2.19. Availability of Airport Planning Documents for CASP Airports.....	2-66
Table 2.20. Land Use Compatibility and Business Development at CASP Airports	2-71
Table 3.1. CASP Airport Roadway Connectivity	3-4
Table 3.2. CASP Airport Intermodal Integration	3-20
Table 3.3. Top 10 States in Numeric Growth: 2017-2018.....	3-28
Table 3.4. Top 10 States in Percentage of Growth: 2017-2018.....	3-28
Table 3.5. Non-Hub and Basic Commercial Service Airports and Available Air Carriers	3-38
Table 3.6. Colorado Air Quality Maintenance Areas.....	3-40
Table 3.7. Colorado's Key Threatened and Endangered Wildlife Species	3-45
Table 3.8. Potential Airport/Landfill Five-mile Conflicts	3-54
Table 3.9. Key Environmental Issues in Colorado.....	3-65
Table 3.10. Environmental Considerations by Airport	3-67
Table 4.1. Colorado's Key Aviation Issues by System Goal and Respondent Group	4-3
Table 5.1. NPIAS Classifications.....	5-2
Table 5.2. Total NPIAS Airports (U.S. and Colorado).....	5-3
Table 5.3. Colorado's 2019-2023 NPIAS Airport Classifications	5-3
Table 5.4. ASSET Roles	5-6
Table 5.5. ASSET Roles of Colorado's NPIAS Nonprimary Airports	5-7
Table 5.6. 2011 CASP Airport Roles.....	5-12
Table 5.7. FAA/State Airport Classification Factors and Relevancy	5-18
Table 5.8. 2011 / 2020 CASP Classifications Summary Results	5-23
Table 5.9. 2020 CASP Classification Summary	5-23
Table 5.10. 2020 CASP Airports by Classification	5-26
Table 5.11. 2019-2023 ASSET versus 2020 CASP Classifications	5-29
Table 5.12. Colorado System Airport Facility and Service Objectives by Classification	5-31
Table 6.1. Allowable Crosswind Component per RDC	6-12
Table 6.2. Runway Length Objectives by Airport Classification	6-13
Table 6.3. Terminal Sizes Per NBEG by Airport Classification	6-25
Table 6.4. Terminal Size Requirements for Commercial Service Airports	6-26
Table 6.5. Airports Whose Master Plan Airfield Capacities Were Utilized	6-32
Table 6.6. Spreadsheet Modeling Inputs	6-33
Table 6.7. Airfield Capacity	6-35
Table 6.8. 2018 PCI Ratings for System Airports by Area	6-67

Table 6.9. Summary of Percentages Used to Measure Hangar Space by Airport Classification	6-89
Table 7.1. Population Growth by OEDIT Region, 1998-2018	7-5
Table 7.2. Population Forecasts for OEDIT Regions, 2018-2038	7-6
Table 7.3. Colorado Employment by Industry, 1998-2018	7-9
Table 7.4. Forecast of Colorado Employment by Industry, 2018-2038	7-10
Table 7.5. Employment by OEDIT Region, 2018.....	7-12
Table 7.6. Employment by OEDIT Region, 1998-2018	7-13
Table 7.7. Gross Region Product (in Millions of 2009 Dollars)	7-14
Table 7.8. Total Personal Income per Capita (in 2009 dollars)	7-15
Table 7.9. FAA Total U.S. Domestic and International Enplanement Forecasts.....	7-19
Table 7.10. FAA Seats per Aircraft Mile Forecasts.....	7-20
Table 7.11. FAA Average Trip Length Forecasts	7-20
Table 7.12. FAA Load Factor Forecasts	7-20
Table 7.13. Air Cargo - Denver International Airport by Type (Pounds).....	7-21
Table 7.14. FAA Air Cargo RTM Forecasts (Millions of RTMs).....	7-23
Table 7.15. Airports with the Largest Number of Airport-Reported Based Aircraft, 2018....	7-24
Table 7.16. Average Annual Growth Rate by Active Aircraft Type, 2010-2018.....	7-27
Table 7.17. Forecasts of Active Aircraft, Hours Flown, and Fuel Consumed, 2018-2039	7-27
Table 7.18. 2018 Commercial Service Airports Enplanements by Source	7-29
Table 7.19. Enplanements Forecasts - Population and Historical TAF Methodologies (Rounded to nearest 10).....	7-33
Table 7.20. Enplanements Forecasts - Airport Master Plan and Service Type Methodologies (Rounded to nearest 10).....	7-35
Table 7.21. Preferred Enplanement Forecast Methodologies per Airport, 2018-2038.....	7-37
Table 7.22. 2018 Based Aircraft Inventory by Source	7-39
Table 7.23. Based Aircraft Forecasts, 2018-2038.....	7-43
Table 7.24. 2018 GA Operations by Type by Source.....	7-48
Table 7.25. CAGRs Based on ARC	7-53
Table 7.26. GA Operations Forecasts by Methodology, 2018-2038	7-55
Table 7.27. 2018 Military Operations by Source	7-59
Table 7.28. Commercial Service Operations Forecast, 2018-2038	7-64
Table 7.29. Preferred Total Operations Forecast, 2018-2038	7-66
Table 7.30. Enplanements Forecast Comparison to TAF, 2018-2038.....	7-70
Table 7.31. Based Aircraft Forecast Comparison to TAF, 2018-2038	7-72
Table 7.32. FAA Operations Forecast Comparison to TAF, 2018-2038	7-75
Table 7.33. Alternative Based Aircraft Forecasts, 2018-2038 (Airport-Reported)	7-78
Table 7.34. Alternative Commercial Operations Forecasts, 2018-2038 (Airport-Reported) ..	7-82
Table 7.35. Alternative GA Operations Forecasts, 2018-2038 (Airport-Reported)	7-84
Table 7.36. Alternative Total Operations Forecast, 2018-2038 (Airport-Reported)	7-90
Table 8.1. Percent of Airports by Classification with Approaches Negatively Impacted by Obstructions - 2018 Performance/Future Performance Targets.....	8-2
Table 8.2. Airports by Classification That Have an Approach Negatively Impacted by Obstructions.....	8-3

Table 8.3. Percent of Airports by Classification with Full Perimeter Wildlife Fencing - 2018 Performance/Future Performance Targets.....	8-5
Table 8.4. Airports by Classification with Full Perimeter Wildlife Fencing Needs	8-5
Table 8.5a. Percent of Airports by Classification that have Adopted Appropriate Land Use Controls - 2018 Performance/Future Performance Targets	8-7
Table 8.5b. Percent of Airports by Classification that have Adopted Appropriate Height Controls - 2018 Performance/Future Performance Targets	8-7
Table 8.6. Airports by Classification That Do Not Have Land Use Controls and/or Height Controls	8-8
Table 8.7a. Percent of NPIAS Airports that Meet Current Taxiway Geometry Standards - 2018 Performance/Future Performance Targets.....	8-12
Table 8.7b. Percent of NPIAS Airport that Meet Current RSA Standards - 2018 Performance/Future Performance Targets	8-12
Table 8.8. Airports by Classification with FAA Design Standard Needs	8-14
Table 8.9. Percent of Airports by Classification that have a Dedicated SRE Building - 2018 Performance/Future Performance Targets	8-17
Table 8.10. Airports by Classification with Dedicated SRE Building Needs	8-18
Table 8.11. Percent of Population within a 30-Minute Drive Time of an All-Weather Runway - 2018 Performance/Future Performance Target.....	8-19
Table 8.12. Airports by Classification That Do Not Meet All-Weather Runway Criteria	8-20
Table 8.13. Percent of Commercial Service Airports by Classification with Adequate Terminal Capacity - 2018 Performance/Future Performance Target	8-22
Table 8.14. Commercial Service Terminal Size Needs	8-22
Table 8.15. Percent of Airports by Classification with Adequate GA Terminal Capacity - 2018 Performance/Future Performance Targets.....	8-23
Table 8.16. Percent of Airports by Classification with Adequate Transient Hangar Spaces - 2018 Performance/Future Performance Targets.....	8-23
Table 8.17. Percent of Airports by Classification with Necessary Fuel Type, Available 24/7 -2018 Performance/Future Performance Target	8-24
Table 8.18. Airports by Classification That Do Not Have Necessary Fuel Type, Available 24/7	8-25
Table 8.19. Percent of Airports by Classification that Support the Aerospace Manufacturing, Technology, and/or Testing Industry - 2018 Performance/Future Performance Targets	8-26
Table 8.20. Percent of Airports by Classification with Adequate Utilities - 2018 Performance/Future Performance Targets	8-26
Table 8.21. Airports by Classification with Utility Needs on Undeveloped Land.....	8-27
Table 8.22. Percent of Airports by Classification with Certified On-Site Weather Reporting (AWOS or ASOS) - 2018 Performance/Future Performance Targets ..	8-28
Table 8.23. Airports by Classification Certified On-Site Weather Reporting Needs	8-29
Table 8.24. Percent of Airports by Classification with Pavement Maintenance Programs - 2018 Performance/Future Performance Targets.....	8-29
Table 8.25. Airports by Classification That Should Adopt a PMP	8-30
Table 8.26. Percent of Airports by Classification with an Average Runway and/or Taxiway PCI of 70 or Greater - 2018 Performance/Future Performance Targets.....	8-31

Table 8.27. Airports by Classification with Pavement Maintenance Needs	8-31
Table 8.28. FAA Aircraft Categories and Design Standards.....	8-34
Table 8.29. ARC Analysis for System Airports	8-35
Table 8.30. 2020 CASP ASVs Based on 2018 and 2038 Operational Demand	8-39
Table 8.31. Airports with Over 75,000 Annual Operations in 2018 or Projected by 2038.....	8-42
Table 8.32. Colorado Airports ASSET Categories.....	8-45
Table 8.33. CASP Non-NPIAS Publicly Owned Airports - NPIAS Eligibility Criteria & Analysis Results	8-46
Table 8.34. Potential Changes to CASP Airport ASSET Classifications	8-47
Table 8.35. GA Terminal Buildings Size Needs by Classification Based on Forecasted Demand Through 2038	8-49
Table 8.36. Airports with Adequate Existing Hangar Spaces by Classification for 2018 and 2038 Demand.....	8-52
Table 8.37. Airports by Classification with Apron Tie-Downs Needs Based on 2018 and 2038 Demand.....	8-54
Table 9.1. Growth in Enplanements and Available Seat Miles (ASMs) at Colorado Airports ..	9-11
Table 9.2. Regional Airline Share of Colorado	9-12
Table 9.3. EAS Colorado Contracts	9-13
Table 9.4. Total Annual Winter Tourism Visitors to Colorado	9-28
Table 9.5. Job Impacts of Reduced Visitor Spending Due to a 10 Percent Decline in Winter Tourism	9-30
Table 9.6. Job Impacts of Reduced Airport Operations Due to Air Visitor Losses.....	9-30
Table 10.1. 2020 Goals and PMs.....	10-2
Table 10.2. Safety and Efficiency Goal: Project Costs by PM.....	10-5
Table 10.3. Access and Mobility Goal: Project Costs by PM.....	10-7
Table 10.4. Economic Sustainability Goal: Project Costs by PM.....	10-8
Table 10.5. System Viability Goal: Project Costs by PM.....	10-9
Table 10.6. Total Project Costs by Goal Category.....	10-10
Table 10.7. Airfield Facility Project Costs by Objective.....	10-13
Table 10.8. Lighting/NAVAIDs Facility Project Costs by Objective.....	10-16
Table 10.9. Airport Facility Project Costs by Objective	10-18
Table 10.10. Services/Other Project Costs by Objective	10-20
Table 10.11. Total Project Costs by Facility and Service Objective Category.....	10-21
Table 10.12. Total Future Facility Project Costs	10-23
Table 10.13. Total Overlapping PM and F&SO Project costs by PM	10-25
Table 10.14. Additional CDOT CIP Costs by Project Type	10-26
Table 10.15. 2018-2022 DEN CIP Costs	10-27
Table 10.16. DEN Average CIP Costs (FY 2015- FY 2018)	10-28
Table 10.17. 2023-2038 Estimated DEN CIP Cost	10-28
Table 10.18. 2018-2038 DEN CIP Costs	10-28
Table 10.19. Total System Projects Costs by Recommendation	10-29
Table 10.20. Total System Project Costs by Airport Classification.....	10-32
Table 10.21. Colorado System Investments by Source (FY 2015-2019)	10-45
Table 10.22. Annualized System Needs vs. System Investment Over Time (Excluding DEN)	10-46
Table 10.23. Annualized System Needs vs. System Investment Over Time (Including DEN)	10-47

Table 10.24. Safety and Efficiency Recommendations	10-49
Table 10.25. Access and Mobility Recommendations.....	10-51
Table 10.26. Economic Sustainability Recommendations	10-52
Table 10.27. System Viability Recommendations.....	10-53
Table 10.28. Colorado Airports Annual Funding Gap	10-58
Table A.1. Summary of Airports' Land Use Evaluation.....	A-14
Table B.1. Colorado System Airport Facility and Service Objectives by Classification.....	B-3
Table C.1. Safety and Efficiency PMs.....	C-3
Table C.2. Safety and Efficiency SIs	C-6
Table C.3. Access and Mobility PMs.....	C-11
Table C.4. Access and Mobility SI	C-16
Table C.5. Economic Sustainability PMs.....	C-21
Table C.6. Economic Sustainability SIs	C-24
Table C.7. System Viability PMs.....	C-29
Table C.8. System Viability SIs	C-33
Table C.9. Airfield Facility Objectives by Airport Classification	C-38
Table C.10. Airfield Facility Objectives.....	C-39
Table C.11. Lighting/Navigational Aids (NAVAIDs) Facility Objectives by Airport Classification	C-45
Table C.12. Lighting/NAVAIDs Facility Objectives.....	C-46
Table C.13. Airport Facility Objectives by Airport Classification	C-53
Table C.14. Airport Facility Objectives	C-55
Table C.15. Services/Other Objectives by Airport Classification.....	C-64
Table C.16. Service/Other Facilities Objectives.....	C-65

List of Figures

Figure 0.1. 2020 vs. 2019 Same-day TSA Throughput Ratio	0-4
Figure 0.2. Airports Surveyed as part of the 2020 COVID-19 Postscript Analysis.....	0-12

Acknowledgements

The 2020 Colorado Aviation System Plan (CASP) and Colorado Aviation Economic Impact Study (CEIS) would not have been possible without meaningful collaboration and dedication from representatives of Colorado's aviation community. The participants' time, efforts, and input will undoubtedly shape the future of the Centennial State's aviation system.

Special Thanks To:

Project Advisory Committee (PAC) Members

- Kathleen Collins, CDOT Statewide Planning
- Jeannette Hilaire, Denver International Airport
- Jason Licon, Colorado Airport Operators Association, Northern Colorado Regional Airport
- Kenneth Maenpa, Colorado Aeronautical Board, Telluride Regional Airport
- Chic Myers, Colorado Aeronautical Board
- John Sweeney, FAA Denver ADO

Colorado Aeronautical Board (CAB) Members

- Robert Olislagers, Chair
- Kenneth Maenpa, Vice Chair
- Chic Myers, Secretary
- Ann Beardall
- Kent Holsinger
- Amy Miller
- Joe Rice

Colorado Department of Transportation (CDOT) Division of Aeronautics Team

- David Ulane, Director
- Scott Storie, Project Manager
- Todd Green
- Tonya Hill
